Project submission instructions:

1- **Each member** of the team should submit the file on time **independently.**

2- The file name should be in the format of "Gxx_Submissionyy".
   xx is your group number. Make sure that all the group members write the same group number for the file name.
   yy ranges from 01 to 05 according to the submission number.
   e.g. "G13_Submission01" means that you are in group 13 and the file is the first submission.

3- The file should be in PDF format unless otherwise is a must.

4- For each submission, the first page should include the group number and the names of the group members with their codes.

5- The project can be written in Arabic or English. Make sure to use one language only. In case of writing in Arabic, only the formal Arabic language should be used.

6- Each submission should include the previous submissions in the same file in the same order of submission.

7- My comments about the submission will be sent to ONE member ONLY of the team.

8- Make sure not to modify the file after the deadline because this will be a late submission.

9- A late submission is 3 days late. Otherwise, the submission will not be graded.

10- Submitting the file in the wrong link is your own responsibility. It does not mean that you will get the mark.

11- In case of having an excuse, you should tell me within a week of the submission. Later excuses will not be accepted.

12- Plagiarism is a very serious problem.

13- Using AI (Artificial Intelligence) is completely forbidden. It is the responsibility of all the team members not to use AI in the submissions.
